SCRIPT FOR CCE MUN DEBATE

BY TUCKER COWDEN, MHMS

*Outside of this guide, consult additional TN YMCA CCE supplements and Robert's Rules of Order

*Script is written with the assumption of more than one patron for the resolution/bill. If there is only one presenting patron, change statements to the singular (i.e. "Does the Patron" instead of "Do the Patrons").

OVERVIEW

Model UN (MUN) debate should be seen in the context of the actual United Nations General Assembly, where delegates speak directly on behalf of the governments of the nations they represent and the items debated are called **resolutions**. Because of this setting, MUN delegates should know their nation's stance on important world issues and approach them as that country's government would (even if the delegates do not agree with that approach). This applies especially to the resolution that you are presenting. It should address not only an issue that the delegates think is important, but one that the country's government thinks is important and would actually present to the UN. Also, although the event is called "Model UN," speakers referring to the body should not say that "the Model UN" should do such-and-such. You are to be completely in character, acting as if Model UN were the actual United Nations (so refer to the conference as "the UN" or "the United Nations").

ASKING TECHNICAL QUESTIONS

(after being recognized by the chair)

Speaker: [States Name, States Country, States **One** Question (must be one that merits a response of yes, no, a number, a definition, or a short, expository rather than persuasive answer) (the question is directed to the presenting delegates)]

CON/PRO DEBATE

(after being recognized)

*Delegates may take one or two of the three actions listed below (ask questions, speak to the floor, yield time to another delegate), but may not only yield time to another delegate (you can only ask questions or only speak, but cannot only yield time).

Speaker: (States Name, States Country) and...

- To Ask A Series of Questions

Speaker: Do the Patrons yield to a possible series of questions? (**Not:** “a series of possible questions,” or “a question.”)

Chair: They do so yield

Speaker: (To Patrons) (Asks Questions and receives answers for up to two minutes, depending on the committee/GA/plenary’s time structure).

*It is important to note that questions asked as a Con speech should seek to criticize, or at least show skepticism for, the given resolution. Those asked as a Pro speech should do the opposite, emphasizing the positive aspects of the resolution.

- To Address the Assembly

Speaker: May I address the floor?

Chair: That is your right.

Speaker: (Speaks to fellow delegates, not the patrons, for the allotted amount of time either in favor of (pro speech) or against (con speech) the resolution).

*You should never use the words “Con” or “Pro” in your speech unless referring to “a previous con speaker,” etc. Con and Pro are not nouns or verbs that can be used to show your support or dislike of a resolution (so **do not** say “I con this resolution”).

- To Yield Remaining time after one of the above to a fellow delegate:

Speaker: May I yield the remainder of my time to a fellow delegate?

Chair: That is your right. Please specify a delegate.

Speaker: [Names the delegate to be yielded to (refer to him/her by country)] (Takes first action)

*Delegates being yielded to should have the same opinion (pro or con) on the resolution as the speakers that yield to them.

MOTIONS

(must be made before the last con speech)

Speaker: (Shouts) Motion!

Chair: Rise and state your motion.

Speaker: (States Name, States Country, States Motion—see table of motions in delegate manual)

Chair: [Takes it from there (decides if the motion is in order or not, asks for a second to the motion, and conducts a vote, usually by voice acclamation)]

A Resolution to Save the Environment

- 1 Knowing that we have lost 12.2% of our forests already.
- 2
- 3 Seeing that forest grow really slow, we need to help now.
- 4
- 5 Realizing that Belize has a deforestation rate of 0.61% per year.
- 6
- 7 The delegation of Belize hereby:
- 8
- 9 Asks the United Nations for \$15,080 to replenish one of Belize's many forests that is
- 10 290 kilometers long and 110 kilometers wide.

A Resolution to Decrease the Number of People Suffering from Malnutrition in Chad

- 1 To the General Assembly:
- 2
- 3 Alarmed by the fact that 75% of Chad citizens are suffering from starvation and
- 4 45% of all children under five are affected by stunted growth due to severe
- 5 malnutrition,
- 6
- 7 Acknowledging that Chad ranks second on the Global Hunger Index "highlighting the
- 8 extreme vulnerability of the population in the face of the food crisis",
- 9
- 10 Noting with grave concern that over 27.18% of all deaths in Chad are the result of
- 11 malnutrition and starvation,
- 12
- 13 Emphasizing that one of the United Nations goals is to eradicate extreme poverty and
- 14 hunger,
- 15
- 16 Disturbed that Chad has insufficient funds to combat malnutrition and starvation.
- 17
- 18 The Delegation of Chad Hereby:
- 19
- 20 Calls upon the United Nations to help secure a response team with the goal of making
- 21 the urgency of the situation known on a global scale so as to raise awareness and to
- 22 begin a donation campaign,
- 23
- 24 Requests that the United Nations supply volunteers and additional aid workers in order
- 25 to provide educational resources and tools specifically focused on developing skills to, in
- 26 turn, help Chadian citizens find sustainable livelihoods as a further defense against
- 27 malnutrition and starvation,
- 28
- 29 Reaffirms that with the help of the United Nations, the delegation of Chad will use
- 30 the donation funds collected to help to provide the people of Chad with emergency food
- 31 supplies during the agricultural lean season from May to September, in order to reduce
- 32 the mortality rate,
- 33
- 34 Expresses its hope to increase the number of people in Chad with access to emergency
- 35 food supplies and with the long-term goal of eradicating starvation across the country,

36 Further proclaims and reminds that the starvation rate in Chad is an overwhelming
 37 75%,
 38
 39 Resolves that the goal of this resolution is to assist the people of Chad by providing
 40 emergency aid while also working towards the long-term goal of eradicating starvation
 41 by providing resources to help Chadians learn critical job skills in agriculture and other
 42 areas of need, and in turn lower the mortality rate across the nation,
 43
 44 Expresses its hope that the United Nations will act upon this request immediately.

Resolution to Earthquake Crises in Ecuador

- 1 or is located in an area with an enormous amount of seismic activity (Ring of Fire),
- 2 leaving it at risk for intense tsunamis, volcanic eruptions, and earthquakes.
- 3 (earthquakes which happen most commonly)
- 4
- 5 2. Alarmed that one earthquake left over 26,000 people in need of shelter, overall
- 6 affecting over 1.2 million inhabitants, and with 2-3 million dollars in damages
- 7
- 8 3. Recognizing that those without homes are being forced to live in unstable shelters
- 9 made of bamboo or sugarcane
- 10
- 11 4. Fully Alarmed that flooding has poisoned crops and damaged infrastructure which
- 12 has left families without safe drinking water
- 13
- 14 5. Acknowledging the fact that children and adolescents are still in need of homes, and
- 15 are not receiving proper education or much medical care
- 16
- 17 6. Noting with concern that earthquake costs add to the losses in oil revenue, which
- 18 may cause major oil producers to rethink their spending in Ecuador
- 19
- 20 7. Bearing in mind organizations such as UNICEF (United Nations International
- 21 Children's Emergency Fund) have already sent basic medical supplies, and have aided
- 22 the affected children
- 23
- 24 8. Concerned that since many earthquakes take place in Ecuador, and frequently its
- 25 inhabitants still do not have homes sixth months after an earthquake, the amount of
- 26 aid needed will continue to add up on top of each other and increase
- 27
- 28 9. Conscious that a recent 5.1 magnitude earthquake, which took place on October 21
- 29 has left homes and buildings damaged. Although this is only a moderate earthquake,
- 30 Ecuador's need for basic necessities are piling on top of each other, and slowly adding
- 31 up. This earthquake is just adding to many others
- 32
- 33 10. The delegation from Ecuador hereby
- 34

35 11. Calls upon the United Nations to donate the amount of 3-4 billion dollars, which
36 would be needed to improve the country's infrastructure and humanitarian needs.
37 These funds would be going towards:

38 Building better and more adequate temporary shelters (adequate meaning proper living
39 conditions and hygiene facilities), as opposed to the bamboo and sugarcane ones being
40 used

41 Providing stronger medical aid, such as vaccinations, proper and sterile equipment
42 (surgical and non-surgical), and sending in more experienced doctors from other UN
43 countries for the residents that were injured

44 Setting up education facilities and institutions for children and adolescents, which will
45 be provided for by UNICEF (United Nations International Children's Emergency Fund)
46 and volunteers (international) from other members of the United Nations, as education
47 is frequently being overlooked in the shelters and camps

48 Rebuilding the structures (houses, workplaces, etc.) destroyed by previous
49 earthquakes, including underground earthquake shelters properly stocked with clean
50 water and food to be better prepared for future earthquakes

51 Providing clean and sufficient amounts potable water, as well as three nutritional meals
52 a day, while still in shelters for those left without homes

53 12. Further invites Ecuador to collaborate with more disaster relief programs such as
54 UNICEF and Red Cross (both of which have helped in the past) to help victims obtain
55 more advanced medical care, which is sorely needed

Hydroelectricity and Sustainable Energy

To the General Assembly:

1 Deeply concerned that 1.5 million people in Argentina don't have access to electricity,
2 with a population of 44.68 million people that is much more compared to the US with
3 almost 99% of the population with electricity,

4 Further recalling that the UN has an initiative of "Sustainable Energy for All" initiative,
5 led by no less than UN Secretary-General Ban Ki-moon, and among the Sustainable
6 Development Goals for the 2015-2030 period, goal 7 is to "ensure access to affordable,
7 reliable, sustainable and modern energy for all by 2030."

8 Noting further that within the UN Charter, it is stated clearly that goals are, "to promote
9 social progress and better standards of life in larger freedom."

10 Encouraged that the economic agencies of the UN, particularly the International
11 Monetary Fund (IMF) and World Bank Group, have played a vital part in improving
12 living conditions around the world.

13 Bearing in mind the United Nations is working with governments everywhere to define
14 the next global agenda to address extreme poverty and preserve the planet---which
15 brought forth the quote from UN Secretary General Ban Ki-moon, "I want this to be the
16 most inclusive global development process the world has ever known."

17 We the delegation of Argentina hereby propose:

- 18 1. Request the General Assembly to address our issue in Argentina within a larger
19 context.
- 20 2. Recommends that a committee be formed to research and assess the international
21 scope of significant populations who have no access to electricity.
- 22 3. Expresses its hope to examine our own possibilities for providing sustainable
23 electricity, Argentina, we advocate the use, where possible, of hydro-electricity.
- 24 4. Strongly affirms its commitment for the delegation from Argentina to play an active
25 part in the fact-finding about electrical international deficits and to report back on the
26 feasible options for developing sustainable energy, not only in Argentina, but worldwide
27 as possible to align with the UN "Sustainable Energy for All" initiative of the Sustainable
28 Development Goals for the 2015-2030 period.

A Resolution to Address the Refuge Crisis in the Middle East

- 1 To the General Assembly
- 2
- 3 Considering that Saudi Arabia has almost 3 million refugees fleeing to our country.
- 4
- 5 Acknowledging our geographic proximity to the war-torn regions of nearby Iraq and
- 6 Syria.
- 7
- 8 Noting that we have already been provided 250 peacekeepers to stabilize the region,
- 9 but have not slowed the flow of refugees.
- 10
- 11 Understanding that most of our refugees come from the North, and acknowledging that
- 12 our northern most cities are AL Qurayat, Tarif, Arar, Rafha, Shoba Nisab, Hafar AL-
- 13 Batin, etc.
- 14
- 15 Regretting that we have already denied 200,000 refugee applicants into our land.
- 16
- 17 The delegation of Saudi Arabia hereby:
- 18
- 19 Calls upon the United Nations to assist us by sending over a minimum of 250 additional
- 20 peacekeepers to both Syria and Iraq, our border countries and our northern border to
- 21 stop further calamity that sends refugees to our land.
- 22
- 23 Furthermore, would like to request humanitarian aid in the form of supply's volunteers
- 24 enough to help our 3 million refugees cope with their numerous needs. That's 13.2% of
- 25 our entire population.
- 26
- 27 Persuades you to realize that ending refugee overflow could benefit many other
- 28 countries in the World.
- 29

A Resolution to Aid Afghanistan in Health Care

- 1 To the General Assembly:
- 2
- 3 Recognizing that one of the goals of the United Nations is to help with the number of
- 4 physicians and medical beds,
- 5
- 6 Aware that Afghanistan has only 0.3 physicians and 0.5 beds at our medical centers for
- 7 every thousand people,
- 8
- 9 Understanding that our population is 34,125,000 and 40.92% are age 0-14 which
- 10 means most of our medical problems come from underage kids,
- 11
- 12 Understanding that the life expectancy is age 54, we understand that people need more
- 13 medical care,
- 14
- 15 Concerned that most of Afghanistan's citizens do not have enough health care we can
- 16 resolve this by adding more doctors and medical funds,
- 17
- 18 Aware that we have a lot of infectious diseases (such as bacterial diarrhea, hepatitis A,
- 19 typhoid fever, and malaria.) We can also resolve this by having more doctors and
- 20 medical facilities,
- 21
- 22 Acknowledging that we need to supply Afghanistan with more health/ medical care so
- 23 they can have better lives,
- 24
- 25 Acknowledging that we are the world's biggest producer of opium and that most of our
- 26 people are addicted to opium and so we need doctors to help our people by making
- 27 sure they stop doing opium and other drugs,
- 28
- 29 Aware that you have helped other countries with healthcare problems we wish for you
- 30 to also help us,
- 31
- 32 We the Delegates of Afghanistan Hereby:
- 33
- 34 Request for the United Nations to send doctors from the World Health Organization to
- 35 help people with their opium addiction;
- 36

37 Recommend that you give us 7548901.79 Afghan Afghani (\$100,000 USD) so we can

A Resolution to Reduce Overfishing in Trinidad and Tobago

- 1 Recognizing that one of the goals of the United Nations is to reduce overfishing,
- 2
- 3 Taking note that oceans absorb roughly 30% of carbon dioxide made by humans which
- 4 impacts global warming,
- 5
- 6 Acknowledging that companies are fishing to supply local markets which leads to
- 7 overfishing,
- 8
- 9 Concerned that coastal water pollution and factories dumping toxins into the water has
- 10 killed many important ecosystems,
- 11
- 12 Emphasizing that pollution is contaminating fish making them unsafe for human
- 13 consumption,
- 14
- 15 Noting that more than three billion people depend on the ocean as their main source of
- 16 protein,
- 17
- 18 We the Delegates of Trinidad and Tobago do Hereby:
- 19
- 20 Request the United Nations to take action by managing marine areas and enforcing the
- 21 regulations put in place;
- 22
- 23 Recommend creating a new treaty to clean up the established industry, such as fishing
- 24 due to the fact that scientists have warned that the world should place at least 30
- 25 percent of global ocean space within marine protected areas by 2030 if it wants to

A Resolution to Address Unreasonable Pretrial Detention Time

- 1 To the General Assembly,
- 2
- 3 Recognizing that the Djiboutian judiciary system lacks independence and efficiency
- 4 according to the U.S Department of State's country reports on human rights and
- 5 Freedom House's profile of Djibouti,
- 6
- 7 Noting with concern that Djiboutian authorities often hold detainees more than 48 hours over
- 8 the legal pre-trial detention time of 48 hours; detainees being Djiboutian citizens who have
- 9 been charged with committing either minor or major crimes and who are awaiting trial,
- 10
- 11 Disturbed by the fact that the Djiboutian prison system keeps detainees who are
- 12 awaiting trial in the same facilities as convicted criminals,
- 13
- 14 Keeping in mind that the United Nations previously addressed this issue in a 2010
- 15 Human Rights Report, but has not yet fully resolved it,
- 16
- 17 Emphasizing that clause ten of the Universal Declaration of Human Rights states, "Everyone is
- 18 entitled in full equality to a fair and public hearing by an independent and impartial tribunal".
- 19
- 20 The Delegates of Djibouti Hereby:
- 21
- 22 Recommends that the United Nations help impose tighter regulations upon the
- 23 Djiboutian judiciary system;
- 24
- 25 Request that more attention should be directed toward providing lawful courts and trials
- 26 to make sure the judicial system can become fully independent;
- 27
- 28 Urge the Djiboutian government to limit the number of detainees in pretrial detention centers;
- 29
- 30 Emphasize the need for additional judicial staff to improve efficiency and to expedite trials;
- 31
- 32 Call upon the United Nation to provide proper materials and volunteers in order to build
- 33 a new detention facility and staff it so detainees awaiting trials are not held with and

- 5
- 6 Having examined that some examples of the things that are polluting the water and air
- 7 are fossil fuels, oil, acid rain, and burning high volumes of trash,
- 8
- 9 Keeping in mind that air pollution from power plant emissions results in acid rain,
- 10
- 11 Alarmed by the fact that acid rain results in contaminated water sources and is

A Resolution to Reduce Environmental Problems in Australia

- 1 To the General Assembly:
- 2
- 3 Recognizing one of the goals of the United Nations is to reduce environmental
- 4 problems, Keeping in mind that Australia has the Great Barrier Reef and is being
- 5 affected by water pollution, tourism, shipping, habitat destruction, and climate change,
- 6
- 7 Mindful that coal mining is destroying the environmental conditions with air and water

A Resolution to Help Create a Vaccine Against the Zika Virus

- 1 Fully alarmed by the recent 80 suspected cases of Zika in Antigua and Barbuda;
- 2
- 3 Deeply concerned that the Zika virus can be transmitted through pregnancy, causing
- 4 serious birth defects, specifically microcephaly (the decrease size of head for infants,
- 5 causing ruinous developmental issues);
- 6
- 7 Emphasizing there is no current vaccine for the Zika virus;
- 8
- 9 Keeping in mind the UN has worked with governments to prepare communities to

- 1 To the General Assembly:
- 2
- 3 Recognizing that one of the goals for the people of France is to reduce the number of

- 5
- 6 Aware that the overall population of France is 67,106,161, but only 2.26% of our

- 8
- 9 Deeply concerned that on January of 2015, there was an attack at a French satirical

GENERAL ASSEMBLY the

Sponsor: El Salvador

Delegates: Samuel Shiberou, Kevin Cargile, Neel Saxe

Committee: Disarmament and International Security

School: White Station

A Resolution to Homicide in El Salvador

1 El Salvador has a high rate of violence, especially homicide. Per 100,000 residents,
2 there were 92 murders in 2015. Keep in mind that in 2015, there were 6.3 Million
3 residents in the country. The country suffers from a major gang problem. Two well
4 known gangs are mara salvatrucha(or MS-13)and the 18th street gang. These gangs
5 are involved with arms and drug traffickers and they can be linked to a large
6 percentage of deaths and violence. Obviously there is a need for law enforcement and
7 the kind that they are lacking are not being put in place.

8 El Salvador's response to the growing rate of violence was to enact a mano dura,
9 which means a heavy hand. This means that they would have more threatening
10 punishments and less tolerance. This however seems to fail because the police officers
11 are taken out by gang members. Studies show that more police officers are gunned
12 down off duty, than on duty. President Salvador Sanchez Ceren gave police officers the
13 right to kill more criminals which caused them to kill 8 times the amount of gang
14 members than in the previous year. In response to this, the gangs have been more
15 violent because of the constant meddling and killing of their gang members. From the
16 later two examples it is evident that El Salvador's homicide rate cannot be solved with a
17 more militarized police force.

18
19
20 The homicide rate in El Salvador is one of the highest out of any country. Per 100,000
21 residents, there are 92 murders in 2015. Keep in mind that in 2015, there were 6.312
22 Million residents in the country and In 2017 the population was 6.378 million; Their
23 population doesn't grow nearly as much as the U.S did. In this time period, the U.S.
24 grew 4.7 million when El Salvador's population only grew 66 thousand. This can be
25 linked to gangs such as Barrio 18 and the 18th street gang whose illegal activities can
26 lead to this country's high murder rate and stunted growth in population.

27
28 The UN states that they find El Salvador's homicides "Offensive". They have also stated
29 that they think that it is the police not doing their job properly. They infer that there is
30 a pattern of behavior between security personnel that could be considered as
31 extrajudicial killings. The UN has not gone into much detail or not responded well
32 towards the homicides in El Salvador.

33 The General Assembly hereby:

34
35

36 Requests the UN to reconsider their views on El Salvador's homicides, and to consider
37 them as the gang members' lack of education.

38
39 State that the education system in El Salvador is underfunded and dysfunctional when
40 compared to that of other nations.

41
42 Further request the UN to reevaluate their plans to better fund the education.

43
44 Most of the gang members in El Salvador, are unemployed, or uneducated (making
45 them have a lower chance in finding a job). In El Salvador, education is only free up
46 until the 9th grade and only around 80% of kids make it to 9th grade. Hearing this, we
47 believe that if education were required and free up until 12 grade, this would result in
48 less people joining a gang. When students are educated, they have a much higher
49 chance getting a job then those who are uneducated making them less likely to turn to
50 a gang. Another resolution could be, you have to be 30 to bear arms. If both of these
51 were put into action, I firmly believe it would reduce the homicide rate caused by
52 gangs. Most people join the gangs around their early 20's, so if we were to push the age
53 restriction to 30, then this would reduce the killing of multiple people. Because there
54 would be less people who have the right to bear arms, there would be less homicides.

Oral Health Issues

1 To the General Assembly:
 2
 3 Noting with concern that only 32% of 35-44-year old's brush their teeth twice a day
 4 and only 23% of 65-74-year old's brush their teeth twice a day with only 5% of them
 5 using fluoride toothpaste. Which out of a population of 1,416,906,700 as of 2018 is a
 6 miniscule amount of people;
 7
 8 Further recalling the World Health Organizations previous conclusion that systematic
 9 community-based oral health in China should be promoted and be strengthened.
 10 Preventive-oriented oral health care systems are needed, including promotion of further
 11 self-care practices and the use of fluoridated toothpaste;
 12
 13 Emphasizing that the World Health Organization's charter states that, "Governments
 14 have a responsibility for the health of their peoples which can be fulfilled only by the
 15 provision of adequate health and social measures";
 16
 17 Recognizing that in 2014, China spent approximately 5.6 percent of its domestic
 18 product on health care, with 30 percent financed by the central government and local
 19 governments and 38 percent by publicly financed health insurance, private health
 20 insurance, or social health donations. There were three main types of publicly financed
 21 insurance.
 22
 23 Further Recalling the World Health Organizations statement that only 15% of the test
 24 subjects would visit a dentist if they experienced bleeding from gums. About 60% of
 25 the subjects paid no attention to signs of caries if there was no pain.
 26
 27 The Delegation of China does hereby

1. Emphasize to the members of the board that affordable insurance in China only
 covers public hospital costs. While it is adequate for people who want to save money, it
 is very basic and does not pay you back right away. Rather, you must pay for dental
 visits out of pocket and the insurance company will reimburse you later. The GDP Per
 Capita in China is only 8,826 U.S dollars per year as of 2017. This is a minute amount
 of money compared to the United States GDP Per Capita which is about \$59,531 as of
 2017.

Perhaps if the Chinese government were to make affordable dental insurance, perhaps
 people would go to the dentist more often. A government-run insurance that pays for
 the co-pay of dentist visits upfront could be more desirable because then people who
 don't have enough money to pay upfront could still afford to go to the dentist. The
 monthly payment if not free, would also have to be low enough for people to afford it.

2. Requests the World Health Organization confer on decreasing the price of dental
 insurance in China.

Support the fact that in America, employees have the right to take time off work to go
 to vote, and most companies also give them time off for doctor's appointments. In
 China the China Employee Vacation Law states employees are allowed paid leave, only
 if they have consecutively worked for 1 year, this is not even a full pardon from working
 as it still is just a break day. We support the idea that the Chinese government could
 and should make a law requiring employers to let their workers off for half a day to go
 to a dentist on paid leave if they show proof of appointment. This would even be a good
 law for all countries who don't have any options for paid leave for doctor's visits. Calling
 upon the World Health Organization to encourage the Chinese government to force
 employers that they may give employees paid leave;

3. Consider that in China, fluoride toothpaste costs \$1.48 US dollars. This may not
 seem like a lot, but with the extremely low GDP Per Capita it is not cheap for most of
 the people in China. We suggest the government give bonuses to production facilities
 who are approved to make real fluoride toothpaste. It would prove that the government
 cares about the common people's health. Requesting the UN suggest this to the
 Government of China.

A Resolution to End Deforestation and Promote Environmental Success

- 1 Noticing with grave concern that over 60% of Costa Rica has been cleared of trees
- 2 since the 1950s, and that approximately 20,000 acres of land are deforested annually,
- 3
- 4 Acknowledging the lack of education among the general population regarding the
- 5 negative environmental impact that deforestation has on the government,
- 6
- 7 Deeply concerned that loggers do not fully appreciate the long-term detrimental effect
- 8 deforestation will have on Costa Rican forests,
- 9
- 10 Emphasizing that an entire plain of trees are cleared to gain the timber from only one
- 11 or two serviceable species, and that the rest is left to rot, unused,
- 12
- 13 Disturbed that this deforestation results in the loss of habitation for over 100 specific
- 14 species of animals,
- 15
- 16 Realizing that Costa Rica's 1969 forestry law controlling the use of logging permits is
- 17 not solidifying the environmental conservation Costa Rica is trying to achieve,
- 18
- 19 Viewing with appreciation that Costa Rica's National Forestry Fund (NFF) is helping to
- 20 consolidate and institutionalize financial incentives for environmental services,
- 21
- 22 Recognizing that the education of others will give knowledge and promote a desire for
- 23 action to address and resolve the problem at hand,
- 24
- 25 We the Delegation of Costa Rica do hereby:
- 26
- 27 Call upon the United Nations to end this environmental affliction by supplying a loan to
- 28 the National Forestry Fund (NFF) to be used to ensure that a minimum of 50% of every
- 29 hectare (1 hectare = 2.47 acres) of forest be protected and conserved,
- 30
- 31 Notes that national conservation agencies of nearby nations such as the United States
- 32 Agency for International Development will be called upon to provide funding for the
- 33 previously mentioned loan,
- 34

35 Recommends that a UN public relations committee be formed to promote the education
 36 of the general population and build public awareness and concern about the long-term
 37 negative consequences that deforestation will have on Costa Rica and its economy,
 38
 39 Emphasizes that the NFF, in addition to conserving the forests and therefore all species
 40 that call it home, are compensating for the logging jobs lost by creating some 18,000
 41 alternative jobs, and indirectly supporting another 30,000, some such jobs stemming
 42 from the growth of ecotourism and adventure tourism,
 43
 44 Encourage the benefactors of the NFF to continue to finance and support them,

Committee: Special Political and Decolonization

A Resolution to Provide Health Care for Immigrants in Spain

1 Aware that early in 2018 a refugee in Barcelona was not feeling well and went to the
 2 hospital with symptoms of tuberculosis (or TB). The hospital refused to test him and
 3 sent him home. He received no treatment whatsoever. A short time later he felt so sick
 4 he was rushed to the emergency room where again he was refused treatment since he
 5 was a refugee. The man died that night;
 6
 7 Disturbed that the man lived in a small space with ten others, as he was a refugee. As
 8 TB is contagious, all ten were also at risk. It is unlikely they will receive any medical
 9 attention due to the law in Spain;
 10
 11 Alarmed that Spanish government is unable to provide any of the 873,000 non-
 12 registered immigrants with non-emergency health care. This measure is creating a
 13 vast public health care crisis;
 14
 15 Concerned that Greece has similar health care problems with refugees and as a result,
 16 there is a dramatic increase in HIV, mental illness, TB and the return of malaria;
 17
 18 The delegation from Spain hereby:
 19
 20 Calls upon the United Nations to intervene help provide at least basic health care to all
 21 refugees and at least emergency health care for anyone who seeks it from a hospital
 22 emergency room;
 23
 24 Emphasizes that the United Nations get involved to stop these "austerity measures" by
 25 providing free health care for the most "at risk" group as far as public health and
 26 infectious disease are concerned (refugees);
 27
 28 Suggests that steps be taken immediately in Spain to decrease the spread of infectious
 29 disease and get UN help to aid in terrible situations where an individual is suffering
 30 simply due to the denial of basic health care; especially in at-risk communities such as
 31 refugees who face diseases such as diabetes patients without insulin, AIDS patients
 32 without proper checks to follow up on progression of the illness, people with cancer in
 33 terminal conditions being refused palliative care units (means dying in horrific pain).

A Resolution to Solve Health Care Issues in Madagascar

- 1 To the General Assembly:
- 2
- 3 Concerned by the fact that there are only 0.2 hospital beds per 1,000 people,
- 4
- 5 Alarmed by the fact that the country's physician density is 0.14 per 1,000 people,
- 6
- 7 Keeping in mind that the health expenditures is 3% of the GDP,
- 8
- 9 Mindful that many people have to walk at least 6 miles to get treatment,
- 10
- 11 Realizing that clinics are understaffed and lack essential equipment,
- 12
- 13 Deeply concerned that only 48% of the population has clean water, and only 14% has
- 14 proper sanitation,
- 15
- 16 Encouraging help with these medical issues, and help transporting those in need to
- 17 hospitals and clinics,
- 18
- 19 We the Delegates of Madagascar do Hereby:
- 20
- 21 Request the World Health Organization to help Madagascar by building more clinics,
- 22 sending proper medical staff and equipment, and providing transportation for patients
- 23 to reach their destination;
- 24
- 25 Further request the United Nations Environmental Programme to help provide us with
- 26 clean water and proper sanitation.

A Resolution to Better Prepare the Citizens of Cuba for Hurricanes

- 1 To the General Assembly:
- 2
- 3 Acknowledging that tens of thousands of Cubans still require repairs on their houses as
- 4 of January 2018, due to the devastating impact Hurricane Irma had on the island
- 5 country in September of 2017,
- 6
- 7 Noting further that 1.86 million people were forced to evacuate their homes and seek
- 8 shelter due to Hurricane Irma,
- 9
- 10 Concerned by the fact that 158,554 homes were affected by Hurricane Irma, 14,657 of
- 11 which were completely demolished leaving thousands of people homeless,
- 12
- 13 Fully aware that 537 kilometers of roads in Cuba were affected by Hurricane Irma and
- 14 were left in need of major repair,
- 15
- 16 Recognizing that Cuba is at an increased risk of being struck by devastating hurricanes
- 17 because of its location in the Caribbean Sea; Cuba has been struck by at least nine
- 18 hurricanes in the past ten years.
- 19
- 20 The Delegation of Cuba hereby:
- 21
- 22 Requests a budget of 3.5 million for materials to make shelters across the country of
- 23 Cuba for all citizens whose homes were damaged by the hurricane,
- 24
- 25 Calls upon the United Nations for funding for a maximum of 30 portable shelters
- 26 housing 100 citizens each across inland Cuba that will help Cubans stay on their feet
- 27 until their homes are repaired,
- 28
- 29 Notes that these portable shelters consisting of beds, showers, and first-aid kits will be
- 30 used to supply those affected by the hurricane, as well as those impacted by future
- 31 major tropical storms,
- 32
- 33 Proclaim that this should go into effect by January 1, 2019.

A Resolution to Improve Public Health Education in Nepal

- 1 Acknowledging only two institutions in Nepal offer a graduate public health degree;
- 2
- 3 Noting with concern a shortage of trained public health faculty;
- 4
- 5 Regretting reliance on the internet to compensate for inadequate teaching resources;
- 6
- 7 Alarmed that the two institutions only produce 30 graduates per year combined;
- 8
- 9 We the delegation of Nepal do hereby:
- 10
- 11 Seek practice-oriented training opportunities;
- 12
- 13 Call for degree options in public health specialties;
- 14
- 15 Welcome an increased investment in public health education;
- 16
- 17 Emphasize the need for more health education resources and teachers;
- 18
- 19 Desire learning environments that promote critical thinking, problem solving and

A Resolution to End the Water Crisis in Yemen

- 1 To the General Assembly:
- 2
- 3 Disturbed by the lack of not only fresh water but also clean water available throughout
- 4 the country knowing that desert climates are prominent;
- 5
- 6 Noting further that water is essential for life and Article 25 of the Universal Declaration
- 7 of Human Rights states that everyone has the right to a standard of living adequate for
- 8 health and wellbeing;
- 9
- 10 Concerned that the population has increased by over five million people since 2010
- 11 thereby increasing the demand for water;
- 12
- 13 Acknowledging that the civil war has complicated efforts for gaining access to clean
- 14 water further creating demands on the national government;
- 15
- 16 Disturbed that there have been more than one million cases of waterborne diseases,
- 17 specifically cholera, with more than 2,000 associated deaths from April 2017 to July
- 18 2018 reported in 22 out of the 23 governorates;
- 19
- 20 Expressing appreciation to the World Health Organization for its efforts through the
- 21 strengthening of disease surveillance, including laboratory capacity, case management,
- 22 and sanitation improvement;
- 23
- 24 The Delegation of Yemen Hereby:
- 25
- 26 Calls upon the World Bank requesting \$2,120,000 for the funding of 265 wells, where one
- 27 well costs about \$8,000, and wells will be dispersed throughout the 23 governorates;
- 28
- 29 Trusts that building wells in the highly populated areas throughout the governorates will
- 30 end the current water crisis;
- 31
- 32 Requests continued assistance from the World Health Organization while wells are being
- 33 built to monitor further cholera outbreaks;
- 34
- 35 Expresses its hope that ample access to clean water will decrease the amount of waterborne
- 36 diseases and deaths as well as decrease the demand put upon the national government.

A Resolution to Improve Human Rights in Zimbabwe

- 1 To the General Assembly:
- 2
- 3 Recognizing one of the goals United Nations is to reduce the number of human rights
- 4 issues,
- 5 Aware that Zimbabwean men, women, and children are continuously subjected to
- 6 forced labor or sex trafficking,
- 7
- 8 Concerned that women face harassment, lower paying jobs, and denial of human
- 9 rights, and denial of civil rights,
- 10 Understanding that some children are lured in and promised education or a home then
- 11 put into the system of forced labor,
- 12 Fearful that Zimbabwe is becoming a major country in the world human trafficking
- 13 system,
- 14 In hopes of exterminating the human trafficking market of Zimbabwe,
- 15
- 16 We the Delegates of Zimbabwe do Hereby:
- 17
- 18 Request that the United Nations military take action for deporting more security to the
- 19 border and in the cities to reduce the amount of human trafficking;
- 20
- 21 Recommends giving 3,000 police officers to increase security around the border and in
- 22 cities to ensure the security of the citizens and to locate and shut down the human
- 23 trafficking organizations;
- 24
- 25 Urge the United Nation military to deport soldiers to our border because with more

Stopping Human Trafficking In Eritrea

- 1 We the delegates of Eritrea are here to present a major problem to the attention of the
- 2 United Nations.
- 3
- 4 Acknowledging that our disputes with Sudan and Ethiopia have been settled we have
- 5 another pressing matter.
- 6
- 7 Human trafficking of men, women and children is happening daily.
- 8
- 9 Baring in mind that they are forced into labor and sometimes even sex in Ethiopia and
- 10 Sudan, we request \$100,000 in order to increase security along our borders and in our
- 11 airports, roads, and train stations.
- 12
- 13 Concerned with the abilities and weapons of our law enforcement and armed forces this
- 14 money will also go into better training and better weapons.
- 15
- 16 Our research shows that this amount of money helped other countries prevent and
- 17 eventually put a stop to human trafficking.
- 18
- 19 Expecting that this problem will take many years to stop completely this small amount
- 20 of money will be the first of many steps to put a stop to this horrible and tragic event.
- 21
- 22 I'm Ammie Spellings, I'm Danica Richmond, and I'm Eva Bowen are here to represent

- 1 To the General Assembly,
- 2
- 3 Fully aware that there were a total of 6,245 crimes in 2016, and 5,401 in 2017,
- 4
- 5 Keeping in mind that the Declaration of Human Rights admits to the issue of sexual
- 6 assault and that everyone has the right of living in peace and health,
- 7
- 8 Recognizing that criminal industries such as human trafficking works to prevent this
- 9 transnational issue,
- 10
- 11 Noting with satisfaction that the United Nations High Commissioner for Human Rights
- 12 stated, "Violence against women in all its forms is a human rights violation. It's not
- 13 something that any culture, religion or tradition propagates,"
- 14
- 15 We the Delegates of the Bahamas do hereby:
- 16
- 17 Requests that the laws against illegal drug trade, smuggling guns and people are more
- 18 strictly enforced;
- 19
- 20 Urges the United Nations to put an end to smuggling of people;
- 21
- 22 Further request the United Nations Office on Drug and Crime to enforce protocol against
- 23 the smuggling of migrants by land, sea and air;

- 1 Denouncing the Security Council's Lack of Help to Syria
- 2
- 3 Acknowledging that the Security Council is the primary instrument for establishing and
- 4 maintaining international peace;
- 5
- 6 Noting that the situation in Syria is escalating;
- 7
- 8 Concerned by the ongoing terror attacks in Syria and all of Western Europe;
- 9
- 10 Disturbed that the Security Council has shown indifference to the crisis;
- 11
- 12 The delegation of Syria hereby:
- 13
- 14 Urge the Security Council to enter a new phase of its history of engagement on these
- 15 crises, moving from shameful indifference to responsible action;
- 16
- 17 Emphasize that the world is looking at this organization to provide this engagement,
- 18 but is too often disappointed;
- 19
- 20 Further emphasize that the Security Council should get serious about conflict-

A Resolution to Reduce Migration in Greece

- 1 To the General Assembly:
- 2
- 3 Noting with concern that the mass migration of unemployed Albanians still remains a
- 4 problem for developed countries especially Greece,
- 5
- 6 Recognizing that 60-65% of immigrants in Greece are unemployed Albanians,
- 7
- 8 Alarmed that some 2,000 will be moved out of a severely overcrowded migrant camp
- 9 on the Greek island of Lesbos this month,
- 10
- 11 Taking into consideration that a special Identity Card for Ethnic Greeks was introduced
- 12 in the past to protect immigrants of Greek origin, mainly Albanian Greeks where
- 13 240,000 Albanians benefitted from this law,
- 14
- 15 We the Delegation of Greece do hereby:
- 16
- 17 Urges the United Nations High Commissioner For Refugees to help give the immigrants
- 18 asylum, protection, general necessities, and education;
- 19
- 20 Further reminds that when they are eligible to qualify for jobs, they will be welcome to

A Resolution to House the Refugees in Ireland

- 1 Alarmed that we currently have a very high amount of refugees, and that the majority
- 2 are homeless
- 3
- 4 Noting, that not just our country is suffering from these refugee problems, making this
- 5 problem an even bigger deal.
- 6
- 7 Emphasizing these refugees are living in poverty.
- 8
- 9 Realizing these refugees are coming from a nearby country, Syria, because of deadly
- 10 war, causing them to evacuate to our country along with many others.
- 11
- 12 Acknowledging, that there are several unused areas in our country, that could
- 13 potentially be used as housing areas for our current and incoming refugees.
- 14
- 15 Realizing, that our country would need almost 1 billion dollars to house these
- 16 immigrants, but if built, could help improve the problem.
- 17
- 18 The delegation of Ireland hereby:
- 19
- 20 Encourages the United Nations to put resources toward building refugee homes in areas
- 21 that are available, within our nation.
- 22
- 23 Requests \$250 million dollars to create shelters to fit the following criteria:
- 24 - shelters, with access to water that can withstand basic weather conditions
- 25 -A place where the people housed in these shelters, can access food.
- 26 -A medical building also, near these shelters, that can do any basic medical procedures,
- 27 as well
- 28 as have any medicine needed after/before these procedures.
- 29 -A 3000x3000 square foot educational building with the ability to teach any children
- 30 how to read and write.
- 31 - Walls around these camps, with any buildings, markets, etc. inside.
- 32
- 33 Recommends a negotiation with Syria about their incoming immigrants
- 34
- 35 Hopes the U.N. will take our requests into consideration, our nation would be very

A Proposal to Aid in Health Care

- 1 To the General Assembly:
- 2
- 3 Taking into consideration that the physician density in Monaco is 6.65 physicians/1,000
- 4 population,
- 5
- 6 Bearing in mind that Monaco has strong relations with the United States and France,
- 7 that the United States medical treatment is among the best in the world,
- 8
- 9 Alarmed by the fact that their life expectancy is ranked 43 compared to other highly
- 10 developed countries,
- 11
- 12 Recognizing that the goal of the World Health Organization is to increase the amount of
- 13 aid provided by rich countries to poor countries,
- 14
- 15 Emphasizing that individuals in the United States have entered public treatment
- 16 facilities more than 1 million times in an effort to end addiction,
- 17
- 18 We the Delegates of Monaco Hereby:
- 19
- 20 Call upon the United Nations to join Monaco to aid in the effort to end addiction in the
- 21 United States;
- 22
- 23 Requests that the World Health Organization, Monaco, as well as our ally, France, send
- 24 doctors to areas of poverty in the United States where access to health care is
- 25 inadequate;
- 26
- 27 Further recalling Monaco's GDP per capita, \$115,700, we are proposing to the United

Delegates: Bradley Pounders, Justin Bourdeau, James Warmbrod

Committee: Social, Humanitarian and Cultural

School: St. George's

37 Recommends that a donor support hotline be instituted to accept financial aid to go
38 towards funding the short-term water needs of the people of Iran,
39
40
41 Reaffirms that the efforts of the crisis response team are intended to find long-term
42 solutions to the water shortage,
43
44 Proclaim that this shall go into effect by January 31, 2019.

A Resolution to Address the Iran Water Crisis

1 To the General Assembly,
2
3 Fully aware that the country of Iran has been, and is currently suffering from deadly
4 droughts that have ravaged the country affecting over 37 million people,
5
6 Deeply concerned that conditions are worsening every day and resources such as
7 drinkable water sanitation, livestock, and crops are under extreme strain,
8
9 Recalling that the United Nations has already taken steps to provide assistance to the
10 situation in Iran in 2000 by sending teams to analyze the situation and propose
11 potential solutions. However it appears that the situation has continued to escalate,
12
13 Fully alarmed by recent studies regarding the current situation; it is estimated that by
14 2040 there will not be enough drinkable water in the country to support its population,
15
16 Gravely concerned that ongoing droughts extend beyond Iran to neighboring nations
17 such as Syria, Turkey, and Iraq,
18
19 Mindful that the growing population of Iran will only escalate this situation causing it to
20 become even more urgent and noting that the time for action is dire,
21
22 The delegation of Iran hereby:
23
24 Calls upon the United Nations and associated UN agencies such as the Office of
25 Coordination of Humanitarian Affairs (OCHA), the United Nations Children's Fund
26 (UNICEF), and the World Health Organization (WHO) take further action in order to
27 address this atrocious crisis,
28
29 Further recommends that a crisis response team composed of researchers and analysts
30 from the above-mentioned organizations should be sent to Iran to conduct additional
31 research on the situation and report back to the UN for further action steps to be taken,
32
33 Reminds the UN that this is an ongoing issue of concern and notes that the formation
34 and deployment of a crisis response team is simply the first step,
35
36 Further reminds the UN that the greatest need of the people is for drinking water,

- 1 A resolution to improve the security to Mexico's southern border.
- 2
- 3 Alarmed that the current caravan traveling through Mexico is estimated to be around
- 4 14,000 men, women, and children.
- 5
- 6 Acknowledging that in January and February of this year Mexico deported over 15,000
- 7 Central Americans.
- 8
- 9 Aware that there are vast, open areas where immigrants are crossing illegally
- 10
- 11 The delegation of Mexico hereby:
- 12
- 13 Calls upon the UN to loan Mexico \$2 million to upgrade our security with personnel and

A Resolution to Reform Human Trafficking Education

- 1 To the General Assembly:
- 2
- 3 Acknowledging that human trafficking is a worldwide problem with the International
- 4 Labor Organization (ILO) reporting there being about 40 million reported victims
- 5 trapped in modern-day slavery, where 25 million were exploited for labor and 15 million
- 6 were in forced marriages, with the highest number of victims being mostly women and
- 7 girls (71%);
- 8
- 9 Alarmed by the number of victims from developing countries being targeted and sold
- 10 not only in developed countries but also other developing nations with 62% of forced
- 11 laborers located in the Asia-pacific region, 23% in Africa, 9% in Europe and Central
- 12 Asia, 5% in the Americas, and 1% in Arab States;
- 13
- 14 Emphasizing that trafficking in persons violates the Universal Declaration of Human
- 15 Rights;
- 16
- 17 Fully aware that the use of information technology, including the internet, is increasing
- 18 as a means for gaining access to vulnerable people and that the internet is a source for
- 19 exploiting victims;
- 20
- 21 Appreciating that both international and national policies and programs for prevention,
- 22 improvement, return and reintegration of victims, have been developed through a
- 23 gender- and age-sensitive, comprehensive and multidisciplinary approach;
- 24
- 25 The Delegation of Colombia Hereby:
- 26
- 27 Endorses the UN's Sustainable Development Goals, specifically Goal 5, which addresses
- 28 gender equality;
- 29
- 30 Calls upon the UN and European Union in conjugation with its efforts with The Spotlight
- 31 Initiative, which works to eliminate violence against women and girls, to create a global
- 32 social awareness campaign geared towards educating females about human trafficking
- 33 and common online ruses against those most vulnerable;
- 34
- 35 Recommends that a proactive approach that incorporates the changing dynamic of the
- 36 internet in human trafficking crimes is needed given that other UN sponsored programs,

37 like the Global Action to Prevent and Address Trafficking in Persons and the Smuggling
38 of Migrants (GLO.ACT), do not adequately address this specific component;
39
40 Urges all nations to stand behind this cause as no country is safe from the crimes of
41 human trafficking.

A Resolution to Reduce Pollution in the Czech Republic

1 To the General Assembly:
2
3 Acknowledging that pollution is caused by industry, mining, and agriculture,
4
5 Deeply concerned that the deaths in the Czech Republic due to pollution are the highest
6 in Europe,
7
8 Observing that use of fossil fuels as an energy source damages forests, bearing in mind
9 that 5,000 people in Czech die from air pollution each year,

A Resolution Against HIV and AIDS

- 1 Acknowledging AIDS (Acquired Immunodeficiency Syndrome) develops only in humans
- 2 due to an immune system that has been weakened by HIV (Human Immunodeficiency
- 3 Virus);
- 4
- 5 Deeply concerned that HIV and AIDS cause symptoms ranging from weight loss, mouth
- 6 and skin issues and sooner or later death.
- 7
- 8 Bearing in mind the organization UNICEF (United Nations Children's Fund) is set on
- 9 researching HIV/AIDS with a goal to find better ways to prevent and treat it, and
- 10 furthermore hoping to discover a cure.
- 11
- 12 Emphasizing that UNICEF has a five year plan in place to give women and minors high
- 13 quality treatment for HIV and AIDS.
- 14
- 15 We the delegation of Swaziland hereby:
- 16
- 17 Request 8.5 million dollars in financial assistance for UNICEF to assist them in creating
- 18 a long lasting treatment for HIV/AIDS in minors and women.
- 19
- 20 Advocate for encouragement of practicing protected sexual interactions as another
- 21 way to prevent HIV.
- 22
- 23 Further requests the association OWLS (Our Whole Lives) to send trained facilitators to
- 24 educate citizens of Eswatini in the prevention of HIV/AIDS.

A Resolution to Provide Medical Care

- 1 Acknowledging the yellow fever, malaria, and diphtheria within the borders of Zambia
- 2
- 3 Concerned by the lack of medical facilities
- 4
- 5 Considering that Zambia's average life expectancy is 55 years and these disease's
- 6 negative affect on our birth rate.
- 7
- 8 The delegation from Zambia hereby:
- 9
- 10 Requests \$430,000 for 100 doctors and \$200,000 worth of medical supplies. The
- 11 \$200,000 worth of medical supplies will go to ambulances, medical supplies, and
- 12 research. About 2,000 people die every three weeks because of disease and aid
- 13 problems. Out of 15,972,001 people, about 30,000 die every year, and with birth
- 14 defects we are not able to regrow our population back up.
- 15
- 16 Stress the urgency or it might spread to other countries

GENERAL ASSEMBLY the

Committee: Economic and Financial

School: White Station

A Resolution to Aid Haiti with Financial Support

1 To the General Assembly:

2

3 Declaring that the Republic of Haiti is located in Central America, more specifically in

4 the Caribbean;

5

6 Deeply concerned that Haiti is a country that needs the help of the United Nations, and

7 in hopes that this resolution will convince the United Nations Agency to send money to

8 this poor nation, because of the big problem they have-78% of Haitians live on 2 or less

9 US dollars a day;

10

11 Haiti is home to just under 10 million people, 1/5 of which live in the country's capital,

12 Port-Au-Prince. Haiti is a republic, with a president, bicameral legislature, and a court

13 system;

14

15 Keeping in mind, the size of this country is 27750 sq km, or 17243 sq miles. Haiti

16 gained its independence from France on January 1, 1804;

17

18 Fully alarmed that to make this country a better, stronger member of the United

19 Nations, that it is important to help them solve their problems;

20

21 Taking into consideration is the fact that 78% of Haitians live on 2 or less US dollars a

22 day. This is very concerning, and stood out as an important issue that needed to be

23 solved because this is a national problem due to the weak government power and

24 natural disasters that cause severe damage to the country.

25

26 Taking note, "Haiti has made considerable strides towards stability and democracy,

27 improvements in strengthening the security and humanitarian situation, and a

28 consolidation of Haiti's democratic institutions through a peaceful transfer of power,

29 including with the support the United Nations Stabilization Mission in Haiti;"

30

31 Notes the whole country is considered poor, because of their population. 1% of the

32 richest Haitians own the same wealth as 45% of the population below their poverty line

33 (\$2.41/day);

34

35 Bearing in mind that not many countries trade with Haiti-because of its industrial

36 manufacturing- but they do trade for agricultural products, as Haiti's land is mostly

37 used by agriculture;

38

39 To General Assembly hereby:

40

41 Emphasizing that the United Nations can solve this problem by aiding Haiti with better

42 supplies and materials. Haiti already has the supplies they need, just not in quality that

43 they can live off of. One reason they don't have these things is that of the natural

44 disasters that strike there, and the government isn't doing anything about it. Supplied

45 money and donated money are helping, but we mainly need to help them with better

46 supplies and materials;

47

48 Further requests the UN Agency to take action of this problem, by aiding Haiti with

49 money, mainly support and supplies, as soon as possible, aiding Haiti within its country

50 for the benefit of Haiti;

51

52 Considering that Haitians are more concerned about their government (and politics)

53 than their country, which is a problem. Some Haitians damage their country, like

54 stealing or vandalizing. The United Nations can help the government to control this, and

55 take care of the country;

56

57 Affirming Haiti's stability and security, the increasing development of the Haitian State's

58 capabilities, in particular, the ongoing strengthening of the HNP, and the national

59 authorities' increasing exercise of the Haitian State's responsibility for the maintenance

60 of stability and security in the country;

61

62 Realizing, that "everyone, as a member of society, has the right to social security and is

63 entitled to realization, through national effort and international cooperation and in

64 accordance with the organization and resources of each State, of the economic, social

65 and cultural rights indispensable for his dignity and the free development of his

66 personality;"

67

68 Encouraged that "the UN maintains its commitment to working with the national

69 authorities for the elimination of the disease in the country and the Secretary-General

70 considers cholera in Haiti a top priority;"

71

72 Acknowledging that "On 13 April 2017, the United Nations Security Council announced

73 that the mission will end in October 2017.[10] It is set to be replaced by a follow-up

74 mission: the United Nations Mission for Justice Support in Haiti (MINUJUSTH), which is

75 expected to have just under 1,300 personnel;"

76

77 Confident that the United Nations will see the importance of this resolution and will

78 consider providing help, and financial support needed from Haitians.

A Resolution to Reduce Pollution in the Netherlands

- 1 To the General Assembly:
- 2
- 3 Noting with concern that there is air and water pollution in streets and cities of the
- 4 Netherlands,
- 5
- 6 Aware that most of the pollution is caused by contamination in rivers and emissions
- 7 from transportation,
- 8
- 9 Bearing in mind that the median life expectancy is 42.6 years of age for the average
- 10 citizen,
- 11
- 12 Fully aware that the pollution from the streets are producing acid rains which are
- 13 polluting the rivers,
- 14
- 15 Deeply concerned that there are 9,800 premature deaths annually in the Netherlands,
- 16 We the delegates of The Netherlands do Hereby:
- 17
- 18 Seek to reduce the number of premature deaths due to pollution;
- 19
- 20 Recommend using renewable energy such as solar and wind power instead of producing
- 21 energy that causes further pollution;
- 22
- 23 Encourage the residents of The Netherlands to diminish air and water pollution by
- 24 recycling everything they can and to bypass littering and ejecting waste into rivers.

A Resolution to Secure the Natural Habitat of Brazil

- 1 To the General Assembly:
- 2
- 3 Realizing one of the goals of the residents of Brazil is to secure the natural habitat of
- 4 their country,
- 5
- 6 Deeply conscious of deforestation, over the span of 30 years, 38 species of animals
- 7 have been declared extinct, including ten mammals, twenty avian species, and eight
- 8 amphibians,
- 9
- 10 Acknowledging our biggest facility, lumber, we the people of Brazil hope to not destroy
- 11 all means of wood by the gathering of said wood,
- 12
- 13 Mindful that if Brazil keeps destroying more land, the country will slowly keep losing its
- 14 economy and beauty,
- 15
- 16 Recognizing that Brazil will ruin over time if deforestation continues, and there will be a
- 17 serious price to pay if Brazil keeps endangering its forests,
- 18
- 19 We the Delegates of Brazil hereby:
- 20
- 21 Further request to establish strict restrictions on deforestation, including limiting the
- 22 amount of farming and agriculture in certain areas;
- 23
- 24 Call upon the United Nations or the Rainforest Alliance to pledge \$70,000 to help
- 25 restore the farmlands of Brazil by planting trees in the areas destroyed to prevent
- 26 deforestation and the endangerment of animal species;
- 27
- 28 Seek hope to designate a protected area of land where we could take action by planting
- 29 more trees so that there is no loss of economic resources;
- 30
- 31 Emphasize the creation of animal sanctuaries for those in danger of becoming extinct;
- 32 Request funds to form a union that raises awareness across the globe for the events
- 33 related to our environmental crisis in hopes that one day it will be resolved.

A Resolution to Stop Pollution in the North Sea

- 1 Bearing in mind that plastic is being mistaken for food by wild life;
- 2
- 3 Deeply concerned that wild life is dying due to toxic and chemical poisoning;
- 4
- 5 Having examined that the pollution could end up hurting humans;
- 6
- 7 Realizing that many other countries have the same problem;
- 8
- 9 Deeply concerned that endangered species may eat the plastic and eventually become

A Resolution For Pollution in Italy

- 1 To the General Assembly:
- 2
- 3 Recognizing that our largest environmental problem is pollution,
- 4
- 5 Concerned that the pollution is causing major problems with the environment,
- 6
- 7 Taking into consideration that air pollution in Italy is costing billions of dollars,
- 8
- 9 Aware that air pollution will affect human life and crops,
- 10
- 11 Fearful that Italy's environment will be harmed if this continues,
- 12
- 13 We the Delegates of Italy do Hereby:
- 14
- 15 Request that Italy take a stand on this large environmental problem to help the
- 16 environment;
- 17
- 18 Recommending that we make a law to not make as much pollution so they can save

A Resolution to End Hunger in Venezuela

- 1 To the General Assembly:
- 2
- 3 Acknowledging the fact that there is currently a national hunger crisis with about 90% of the population suffering from starvation and 70% of those starving have lost about
- 4 19 pounds over the last year;
- 5
- 6 Disturbed that the population poverty rate is between 76% and 87%, resulting in about
- 7 1.5 million people migrating to bordering and nearby countries, like Colombia, Peru, United States, Spain, and Chile, to escape inadequate living conditions;
- 8
- 9 Noting further that this hunger crisis violates Article 25 of the Universal Declaration of
- 10 Human Rights, and the number of deaths due to malnutrition is increasing, especially in
- 11 children;
- 12
- 13 Keeping in mind that the lack of access and funds for food is connected to the nation's
- 14 economy, which is dependent on petroleum exports (accounting for 98% of earnings),
- 15 and oil production has decreased by 800,000 barrels per day in the last year and is at
- 16 its lowest point in more than 70 years;
- 17
- 18 Concerned that there has been a 100% inflation of food products making it the highest
- 19 inflation in the world and in the nation's history;
- 20
- 21 The Delegation of Venezuela Hereby:
- 22
- 23 Endorses the UN's sustainable development goals where it calls for an end to hunger by
- 24 2030;
- 25
- 26 Calls upon the World Food Programme (WFP) for food assistance in the form of
- 27 immediate supplies as well as aid in developing resilience building where food security
- 28 and nutrition will be sustained for years to come while the economy recovers;
- 29
- 30 Trusts that food assistance will slow the growing hunger crisis and decrease the number
- 31 of emigrants to foreign countries thereby increasing the number of people in the

A Resolution to Reduce Oil Rationing in Norway

- 1 To the General Assembly:
- 2
- 3 Recognizing one of the goals of the United Nations is to reduce the usage of oil
- 4 rationing,
- 5
- 6 Aware that we use 1.648 million gallons every day and oil slick had spread 70 miles
- 7 from the accident site;
- 8 Concerned that we import 10,630 gallons every day and we export 1.395 million
- 9 gallons every day,
- 10
- 11 Understanding that we have many oil splatters and we have volunteers cleaning the
- 12 countries coastline,
- 13
- 14 Fearful that we have collected 120 tons of oil from the countries coasts and bays,
- 15 Deeply concerned that much of Norway's economy depends on the oil and gas industry
- 16 which is declining,
- 17
- 18 In hopes that we as a country can decrease the usage of oil that we use,
- 19
- 20 Acknowledging that 97% of electricity generated in Norway comes from renewable
- 21 resources mainly hydropower,
- 22
- 23 We the Delegates of Norway do Hereby:
- 24
- 25 Request our country to take action for the decrease of the usage of our oil;
- 26
- 27 Recommend to and use not as much oil and more of other clean energy sources;
- 28
- 29 Urge to underway to remove the remaining oil;
- 30
- 31 Requests that the United Nations aid us in replacing our nonrenewable energy sources

A Resolution to Improve Low-Quality Education in India

- 1 To the general assembly,
- 2
- 3 Cognizant that for every 10 people in India, the country has 5 that are illiterate people,
- 4
- 5 Noting with concern that only 15% of India's students decide to continue their
- 6 education after going to Elementary School,
- 7
- 8 Recognizing that studies show that many students either advance grades without
- 9 meeting the reading and writing requirements or they only finish 8th grade 2 years
- 10 after they are supposed to,
- 11
- 12 Alarmed that only 59.8% of students reach a fifth-grade level education and 8.1
- 13 millions of children don't go to school. The highest grade in elementary school is 8th
- 14 grade,
- 15
- 16 Further recalling that Indians go to school only for A's and not to get an actual
- 17 education, which greatly affects a child's education,
- 18
- 19 Regretting that the state with the lowest illiteracy rates, Bihar, has an illiteracy rate of
- 20 36.18%, and India has a total illiteracy rate of 25.96%,
- 21
- 22 Deeply concerned that according to the third largest newspaper in India, The Times of
- 23 India, 78 lakh (unit in the Indian numbering system equal to one hundred thousand) of
- 24 Indian children have to work while attending school, and 8.4 crores (Ten million) don't
- 25 go to school because of the same problem,
- 26
- 27 Viewing with agony that the reason for high illiteracy rate is mainly severe poverty,
- 28 population growth, war zones, and natural catastrophes,
- 29
- 30 Recalling that 30% of the world's poorest children live in India, and that groups like
- 31 the Maoists are recruiting children as soldiers and have been exploding schools,
- 32 decreasing the opportunity for children to be part of India's education system,
- 33
- 34 The General Assembly hereby:
- 35

- 36 Encourages the government of each state in India to provide better guidance for
- 37 children in high-school through higher-quality teaching,
- 38
- 39 Seeks to only apply this project to the ten poorest cities in India, Chhattisgarh,
- 40 Jharkhand, Manipur, Arunachal Pradesh, Bihar, Odisha, Assam, Madhya Pradesh, Uttar
- 41 Pradesh, and Karnataka,
- 42
- 43 Further requests the United Nations to spend 2 million dollars in a six-step project, first,
- 44 to communicate with international organizations and world leaders specialized in topics
- 45 of extreme poverty and education for research and development of the project, second,
- 46 to invest so that these international world leaders can become experts on the living
- 47 conditions of Indian children by residing for a short period of time in the specified
- 48 areas, third, to establish communication between these world leaders and local
- 49 organizations of the specified areas to create a project that respects the traditions and
- 50 culture of India while improving its education system, fourth, to carry out a pilot project
- 51 (first implementation), fifth, to critique the results of the project, sixth, to devise and
- 52 apply a final and surpassing project,
- 53
- 54 Expressing our hope that through this project will achieve communication between the
- 55 UNESCO, the ACEI, the UNICEF, the UNDP, the UNOCHA, and government of India to
- 56 devise a plan that will go by cultural traditions of India while improving its education
