SCRIPT FOR CCE MUN DEBATE

BY TUCKER COWDEN, MHMS

*Outside of this guide, consult additional TN YMCA CCE supplements and Robert's Rules of Order

*Script is written with the assumption of more than one patron for the resolution/bill. If there is only one presenting patron, change statements to the singular (i.e. "Does the Patron" instead of "Do the Patrons").

OVERVIEW

Model UN (MUN) debate should be seen in the context of the actual United Nations General Assembly, where delegates speak directly on behalf of the governments of the nations they represent and the items debated are called **resolutions**. Because of this setting, MUN delegates should know their nation's stance on important world issues and approach them as that country's government would (even if the delegates do not agree with that approach). This applies especially to the resolution that you are presenting. It should address not only an issue that the delegates think is important, but one that the country's government thinks is important and would actually present to the UN. Also, although the event is called "Model UN," speakers referring to the body should not say that "the Model UN" should do such-and-such. You are to be completely in character, acting as if Model UN were the actual United Nations (so refer to the conference as "the UN" or "the United Nations").

ASKING TECHNICAL QUESTIONS

(after being recognized by the chair)

Speaker: [States Name, States Country, States **One** Question (must be one that merits a response of yes, no, a number, a definition, or a short, expository rather than persuasive answer) (the question is directed to the presenting delegates)]

CON/PRO DEBATE

(after being recognized)

*Delegates may take one or two of the three actions listed below (ask questions, speak to the floor, yield time to another delegate), but may not only yield time to another delegate (you can only ask questions or only speak, but cannot only yield time).

Speaker: (States Name, States Country) and...

- To Ask A Series of Questions

Speaker: Do the Patrons yield to a possible series of questions? (**Not:** “a series of possible questions,” or “a question.”)

Chair: They do so yield

Speaker: (To Patrons) (Asks Questions and receives answers for up to two minutes, depending on the committee/GA/plenary’s time structure).

*It is important to note that questions asked as a Con speech should seek to criticize, or at least show skepticism for, the given resolution. Those asked as a Pro speech should do the opposite, emphasizing the positive aspects of the resolution.

- To Address the Assembly

Speaker: May I address the floor?

Chair: That is your right.

Speaker: (Speaks to fellow delegates, not the patrons, for the allotted amount of time either in favor of (pro speech) or against (con speech) the resolution).

*You should never use the words “Con” or “Pro” in your speech unless referring to “a previous con speaker,” etc. Con and Pro are not nouns or verbs that can be used to show your support or dislike of a resolution (so **do not** say “I con this resolution”).

- To Yield Remaining time after one of the above to a fellow delegate:

Speaker: May I yield the remainder of my time to a fellow delegate?

Chair: That is your right. Please specify a delegate.

Speaker: [Names the delegate to be yielded to (refer to him/her by country)] (Takes first action)

*Delegates being yielded to should have the same opinion (pro or con) on the resolution as the speakers that yield to them.

MOTIONS

(must be made before the last con speech)

Speaker: (Shouts) Motion!

Chair: Rise and state your motion.

Speaker: (States Name, States Country, States Motion—see table of motions in delegate manual)

Chair: [Takes it from there (decides if the motion is in order or not, asks for a second to the motion, and conducts a vote, usually by voice acclamation)]

Establishing Relations Between Japn and North Korea

- 1 Deeply concerned for our abducted citizens that have not yet returned;
- 2
- 3 Concerned that out of 900 cases of our citizens being abducted, 17 cases of abduction
- 4 have been confirmed by North Korea while the possibility of North Korean involvement
- 5 for the remaining 883 cases cannot be ruled out;
- 6
- 7 Bearing in mind that North Korea is using the abducted Japanese citizens to train
- 8 government spies;
- 9
- 10 Aware of the fact that foreign relations between Japan and North Korea are lacking;
- 11
- 12 Conscious that 91% of Japan's population views North Korea in a negative light;
- 13
- 14 The Delegation of the State of Japan hereby
- 15
- 16 Requests that the United Nations arranges a peace summit between Japan and North

A Resolution to Exterminate Narcotics in Ecuador

- 1 To the General Assembly:
- 2
- 3 Alarmed that Ecuador is one of the most drug producing countries on the entire planet,
- 4
- 5 Acknowledging statistics, over 8.9 billion U.S. dollars of cocaine are made and sold in
- 6 Ecuador every year,
- 7
- 8 Fully Aware that Ecuador also uses human trafficking to help both produce and
- 9 distribute the cocaine,
- 10
- 11 Concerned that Ecuador is on the edge of being overrun with cartels,
- 12 Noting that the cartels are increasingly violent and creating rivals,
- 13
- 14 We hereby call on the U.N. for 20,000 Peacekeepers to help enforce local laws and slow
- 15 down trafficking routes,
- 16
- 17 Requesting 3 billion U.S. dollars to help Ecuador create an air force to patrol the

A Resolution to Bioengineer the Datura Plant to Limit the Ability of Farming and Procreating the Scopolamine Drug in Romania

- 1 Noting with concern that the scopolamine drug is one of the most dangerous and illegal
- 2 drugs in the world, it is found in the seeds of the Datura plant and is commonly mixed
- 3 with drugs such as marijuana and heroin;
- 4
- 5 Fully aware that it is freely grown in South Romania, most of Europe, and the Americas,
- 6 the Datura plant was originated in Spain;
- 7
- 8 Considering the scopolamine drug is used as a medication to treat nausea, but misuse
- 9 can cause painful migraines, hallucinations, and fatal comas;
- 10
- 11 Recalling cases where children ingested a handful of these seeds, began hallucinating
- 12 "monsters," fainted and were taken to the hospital;
- 13
- 14 The delegates of Romania do hereby:
- 15
- 16 Emphasizes the request of the United Nations, to conclude and partner with the
- 17 Department of Bioengineering to aid in the remedy of Romania and similar countries'
- 18 drug issues;
- 19
- 20 Authorizing the Department of Bioengineering to engineer the seeds and DNA of these
- 21 plants will ensure a safer agriculture for the citizens of Romania and surrounding
- 22 countries and benefit the rest of the world;
- 23
- 24 Reminding that the use of this drug medically for the treatment of nausea will be legal,
- 25 but combining it with other lethal substance mixtures such as marijuana or heroin, will
- 26 be illegal;
- 27
- 28 Reaffirming the hope of the future for not only the use of threatening drugs, but similar
- 29 substances that can possibly become abused requires the help of each and every
- 30 person and more importantly, member of the United nations.

GENERAL ASSEMBLY the

Sponsor: United Arab Emirates

Delegates: Samuel Winstead, Wilkes Gowen, Benjamin Coleman
Committee: Special Political and Decolonization
School: PDS

A Resolution to Save Citizens from Air Pollution in United Arab Emirates

- 1 Knowing that air pollution is hurting the UAE in lethal ways;
- 2
- 3 Concerned that in July of 2018, The National reported that there had been over
- 4 120,000 deaths a year caused by air pollution in the UAE, roughly 325 people per day;
- 5
- 6 Frustrated that a major cause of poor air quality is due to uncontrollable sandstorms
- 7 which cause asthma and other respiratory problems making it difficult for people who
- 8 work outdoors or have outdoor activities to breathe;
- 9
- 10 Alarmed that a recent sandstorm on July 6 in Dubai caused over 250 car wrecks;
- 11
- 12 Fully believing that our citizens would avoid outdoor activities/travel if properly
- 13 informed of dangerously high levels of air pollution;
- 14
- 15 Keeping in mind that cities such as Los Angeles and Beijing have experienced success
- 16 with air monitoring devices;
- 17
- 18 The delegation of the United Arab Emirates hereby:
- 19
- 20 Call upon the UN to end this tragic problem in the UAE and improve the safety of
- 21 our citizens by funding a vital air pollution detector which will notify our citizens when
- 22 there is too much pollution in the air so that they can stay inside until air quality levels
- 23 improve;
- 24
- 25 Recommend that the UN see this as a serious problem and help us with this
- 26 issue by sending workers to help us design, build, and implement this important air
- 27 pollution detector;
- 28
- 29 Proclaim that if this air pollution detector is created, we can sell it to more cities in the
- 30 desert with all profit money going to the United Nations;
- 31
- 32 Express hope that a collaborative effort will be given to save our citizens from the poor
- 33 air quality in our great country.

Seeking Just Laws for Abused Women in Malaysia

- 1 Alarmed that one in five women between ages 15-49 have reported experiencing physical or sexual abuse;
- 2
- 3
- 4 Noticing that the punishment for domestic violence to women is ineffective;
- 5
- 6 Deeply concerned that women continue to suffer violence in every part of the world;
- 7
- 8 Outraged that 49 countries currently have no laws protecting women from domestic violence;
- 9
- 10
- 11 Understanding that in the year of 2015, most of the punishment consisted of caning, a fine, or to be imprisoned 3-20 years;
- 12
- 13
- 14 Recognizing that 52 percent of women, married or unmarried, do not make their own decisions about healthy relationships;
- 15
- 16 Keeping in mind that some penalties consist of a small fine of 450 US dollars, with no imprisonment involved;
- 17
- 18
- 19
- 20 The delegation of Malaysia hereby
- 21
- 22 Suggest that the United Nations partner with UN Women to provide security to women;
- 23
- 24 Requests that the United Nations provide advisers to Malaysia to educate the legislators to modify the penalties for domestic violence;
- 25
- 26
- 27 Notes that this would satisfy Sustainable Development Goal 5.2.

GENERAL ASSEMBLY the

Delegates: Mason Morris, Krishnav Manga, Zayyan Chaudhry
Committee: Social, Humanitarian and Cultural

Resolution to ensure access to clean water and sanitation in order to reduce the spread of infectious diseases

- 1 Noting with deep concern that more than 163 million people in India do not have access to clean water, the highest in the world;
- 2
- 3
- 4 Alarmed that everyday about 2000 children aged less than five succumb to diarrhea and every 40 seconds a life is lost;
- 5
- 6
- 7 Deeply concerned that India is the country with the highest number of people practicing open defecation, around 525 million people;
- 8
- 9
- 10 Realizing that only about three percent of the world's water is freshwater, and only one percent of the freshwater is accessible;
- 11
- 12
- 13 Noting that education about proper sanitation techniques, the risks of using un-sanitized water, and the safest ways to store water are not provided to all people in the world;
- 14
- 15
- 16 Keeping in mind that poverty and lack of access to clean water are highly correlated;
- 17
- 18 Deeply Concerned that climate change and changing dietary habits of many people will increase water scarcity, posing a great threat to global security as countries will be forced to compete for water;
- 19
- 20
- 21
- 22 Recalling the Human Rights Council Resolution 12/8, (October, 2009) the Human Rights Council for the first time, recognizes that States have an obligation to address and eliminate discrimination with regard to access to sanitation, and urges them to address effectively inequalities in this area;
- 23
- 24
- 25
- 26
- 27 Recalling that in July 2009, the UN general assembly formally recognized the right to water and sanitation for the first time;
- 28
- 29
- 30 Recalling the UN Human Rights Council resolution 24/18 (27 September 2013): First resolution to include a definition of the human rights to water and sanitation;
- 31
- 32
- 33 Recalling that the Millennium Development Goal on sanitation was to increase access to clean water from fifty percent of the global population to seventy percent of the population, but that goal was missed by nearly 700 million people;
- 34
- 35
- 36

37 Recognizing that goal six of the 2016 Sustainable Development Goals is to ensure

A Resolution to End the Israel-Palestine Conflict

- 1 To the General Assembly:
- 2
- 3 Noting that for decades Israel and Palestine have been fighting for a homeland. The
- 4 conflict over the land has caused terrorism and discrimination. The people of the
- 5 countries deserve a homeland where they are not persecuted for race, religion, and/or
- 6 political stance.
- 7
- 8 Alarmed by the effects of the conflict on Israelis and Arabs alike. With a total of
- 9 116,074 deaths of both Israelis and Arabs, civilians and soldiers. Along with an
- 10 additional 1,14,298 wounded.
- 11
- 12 Concerned with the mental effects of children in the area as children living in the areas
- 13 with high political violence have a higher rate of cytopathology (mental health
- 14 disorders).
- 15
- 16 Also concerned by terrorism caused by the Palestinian Liberation Organization (PLO)
- 17 and Hamas, because Hamas is recognized as an official terrorist organization, and the
- 18 PLO was a terrorist organization until the Madrid Conference in 1991. Since 1991 the
- 19 PLO has still committed acts of terrorism.
- 20
- 21 Keeping in mind that the per capita death rate from terrorism in Israel is extremely
- 22 high, and the threat is acutely felt throughout the country. Thousands of Israelis have
- 23 died in terrorist attacks. This includes Israelis who have died from terrorism in foreign
- 24 countries. This also includes foreigners from across the world who have traveled to
- 25 Israel and killed by terrorists.
- 26
- 27 Noting that the 2006 UN counter-terrorism resolution was passed stated, "We resolve
- 28 to undertake the following measures aimed at addressing the conditions conducive to
- 29 the spread of terrorism, including but not limited to prolonged unresolved conflicts,
- 30 dehumanization of victims of terrorism in all its forms and manifestations, lack of rule
- 31 of law and violations of human rights, ethnic, national and religious discrimination,
- 32 political exclusion, socio-economic marginalization, and lack of good governance, while
- 33 recognizing that none of these conditions can excuse or justify acts of terrorism."
- 34
- 35 Acknowledging that Chapter One, Article One of The United Nations Charter states one
- 36 of the purposes of the United Nations is: "To develop friendly relations among nations

37 based on respect for the principle of equal rights and self-determination (the right for a
38 group to control its own political future) of peoples, and to take other appropriate
39 measures to strengthen universal peace.”

40 Viewing with appreciation the efforts of past UN resolutions and committees which have
41 tried to solve the issue,

42 We the delegation of Israel do hereby:

43 Propose that the land of Israel be split into The State of Israel controlled by the current
44 government of Israel and The State of Palestine controlled by the de jure sovereign
45 state of Palestine.

46 Palestine would gain control of everything East of Eliat and Shani-Livne and Israel
47 would gain control of all the land West of Nazareth and North of the West Bank.
48 Palestine would remain in control of the West Bank and the Gaza Strip. All the
49 remaining land will remain in control of Israel.

50 The capital of Israel will be Jerusalem because it is their current capital and an
51 important piece of the Jewish faith. Palestine may choose its capital as it pleases. The
52 United Nations will recognize both countries as will the 194--member states of the
53 United Nations.

54 Also aware of the possible retaliation of neighboring nations and terrorist organizations.
55 As to not cause another “Arab-Israeli War” or “Yom Kippur War”, we request the UN
56 provide peacekeeping soldiers as many as the security council sees fit at any given
57 time. The peacekeepers will remain in decline in Israel and Palestine for at least 2 years
58 to prevent terrorism and violence.

59 We call upon the United Nations to impose economic sanctions on any country that uses
60 military force against either Israel or Palestine based on the measures enacted by this
61 resolution until that country has entered into a peace agreement with Israel and
62 Palestine.

Environmental Issues in Laos

- 1 Laos has a very bad environment. Most of the population does not have clean water.
- 2 There is also very bad bio-chemicals in the air. This results in an average life-
- 3 expectancy rating of 64.3 years. This is 182nd out of 193 countries in the UN. A big
- 4 problem of this is deforestation. This caused a spread of erosion. The government has
- 5 made efforts on trying to stop this, but little has worked. Also, there are problems with
- 6 the dams.
- 7
- 8 The dams on the Mekong are a big threat to the marine life by it. The dolphins, which
- 9 are native to the area, are slowly become extinct there, but it is not just dolphins that
- 10 the environmentalists are worried about, it is the entire ecosystem. There have also
- 11 been regulations on things such as hunting and fishing.
- 12
- 13 The Republic of Laos hereby requests:
- 14
- 15 64 million dollars to fund a project for building wells. Also, We would like 400 million
- 16 dollars to fund our program, The National Forest Resource Conservation and
- 17 Development Strategy.
- 18
- 19 We would also request 100 million to fix the dam problems and make a safe home for
- 20 the marine life living in the rivers.

Humanitarian Concerns Over Jamaican Water

- 1 To the General Assembly:
- 2
- 3 Alarmed by the fact that one in four Jamaicans do not have access to clean drinking
- 4 water, keeping in mind that Jamaica should have no water shortage, based on the fact
- 5 that they are regularly in the path of tropical storms and that their average rainfall is
- 6 between 1,200 and 1,800 millimeters per year;
- 7
- 8 Observing that only last year the creaky water system sprang more than forty-thousand
- 9 leaks, gushing water into the streets, and costing Jamaica around one-hundred million
- 10 dollars, as well as resulting in more than half the water being lost;
- 11
- 12 Acknowledging more than sixty percent of the island's water infrastructure is too old to
- 13 be effective, most of which was built during the days of colonialism;
- 14
- 15 Noting that no new reservoir has been built to supply the Greater Kingston area during the
- 16 last sixty years, The Hermitage Dam was completed in 1927, but maintaining its storage
- 17 capacity of four-hundred million gallons is a struggle against the accumulation of silt;
- 18

- 20 optimally managed, and that there are inadequate provisions for catchment of rainfall
- 21 and hopelessly insufficient storage facilities;
- 22
- 23 Aware that there are various United Nation organizations willing to assist our cause;

A Resolution to Stop Crime and Drugs

- 1 Overall murder percentages have increased 10% in the past year. Armed robberies,
- 2 property crimes, purse taking, fraud, and sexual assaults remain are the most common
- 3 crimes against tourists. Most crime occurs at popular tourist locations. Many residents
- 4 and tourists have experienced unknown charges on credit cards from other countries.
- 5 Residents experienced frequent break-ins. Drug smugglers work around the U.S. border
- 6 making the Bahamas a vantage point. Cocaine and marijuana are the two main drugs
- 7 transported in and out of the Bahamas. 64% are Bahamians that were charged with
- 8 drug trafficking. The Bahamas are a pit stop to store and supply the drugs therefore
- 9 making it an international hub. Most Bahamians are drug traffickers due to the night
- 10 unemployment rate.
- 11
- 12 To solve this issue, we are asking the United States to for border patrol not only for its
- 13 country, but also for the surrounding areas like the Bahamas. The United States needs
- 14 to provide background and personal information to neighboring countries to stay alert.
- 15 The main goal to stop crime is to put gates up around sections for neighborhoods and
- 16 to have police surveillance attached to the street lights. In addition to the surveillance
- 17 cameras on the streetlights light poles and neighborhood watch systems will be added
- 18 and put in place to prevent active crime. We are asking the UN for 2.3 million U.S.
- 19 dollars to add infrastructure the Bahamas.
